

Dear Haasini Grace,

My little wonder ☺

I recall the best moment of my life when I saw you for the first time. you truly changed our lives in all respects for the better.

You have been teaching me a lot and we grow-up with you everyday as you explore, uncover and point to us so many things with your curious nature and fresh perspective. you teach me how to live life fully and to be happy.

I was wondering as you give me so much happiness, what future we may offer you. you may think why your dad was thinking about this question. We are living in a beautiful area. This is truly a dreamland. However, I am worried about the Ecological health of the world. We humans have caused wide spread destruction of forests, squandered resources, polluted waters, air and entire ecosystems.

I am still very optimistic and hopeful about your future. This optimism comes from the incredible human spirit, which has rapidly improved the world so far.

As you know, I was born and brought-up in India. I have witnessed poverty and environmental destruction firsthand.

Now a days, my job is to improve the state of the world. so future generations, like yourself, will have better life

than my generation.

At the time of writing this letter, I work for a company called the Lenzing group. This company has a bold vision to limit the adverse effects of climate change. It also produces in ecofriendly facilities and the products will not harm the environment at the end of their useful life. This has been achieved through incredible human spirit and collaboration, which gives me hope.

Do the things that you loved to do because life is precious and short. Don't forget that you always have a 'choice'.

When you read this letter, you would understand how the world was in 2020 and you know what we may have succeeded and failed to accomplish by 2030.

For me, what matters the most is that we, your parents, try our best to give you and your generation a wonderful life.

We wish you health, happiness and great success in life!

You are the love of our lives, our little wonder ♡

We love you no matter what & we are always there for you ☺

with love,

Krishma
